

## LUCKY STARS

### Verse 1

C.            C7                    F                    C  
Woke up just the other day Fell out of bed and my dog ran away  
C                            D                            G  
The car won't start and the weather was cold and gray  
C.            C7                    F                    C  
I got stuck in a traffic jam My major meeting didn't go as I planned  
C                            D                            G  
Looks like it's gonna be another one of those days

### Chorus

C            F                    G                    C  
I got a roof over my head Someone to love me in a four poster bed  
F            C                    G                    F                    F  
I can play this tiny guitar I thank my lucky stars

### Verse 2

C                            C7                            F                            C  
Politicians speak and it makes me ill... People are dyin' just for a thrill  
C                            D                            G  
Maybe it's just evolution gone astray  
C                            C7                            F                            C  
The climate's too hot music's gotten cold, I'm livin' like a health nut but I still  
                          C                            D                            G  
grow old You do what you can on the edge of the Milky Way

### Chorus

C            F                    G                    C  
Got a roof over my head Someone to love me in a four poster bed  
F            C                    G                    F                    F  
I can play this tiny guitar Gonna thank my lucky stars
