**G**                      **D**                      **G**  
Such a feelin's coming over me

**Bm**                      **Am**                      **G**  
There is wonder in 'most everything I see

**C**                      **D**                      **Bm**                      **Em**  
Not a cloud in the sky, got the sun in my eyes

**C**    **D**  
And I won't be surprised if it's a dream.

**G**                      **D**    **G**  
Everything I want the world to be

**Bm**                      **Am**    **G**  
Is now coming true especially for me

**C**                      **D**                      **Bm**    **Em**  
And the reason is clear, it's because you are here

**C**    **D**  
You're the nearest thing to heaven that I've seen.

**Tacit**   **G**    **C**  
I'm on the \_\_\_ top of the world looking \_\_\_ down on creation

**G**                      **D**    **G**  
And the only expla-nation I can find

**C**                      **D**                      **G**    **C**  
Is the love that I've found ever since you've been around

**G**    **D**                      **G**  
Your love's put me at the top of the world.

The Carpenters

Key G

**G**                      **D**                      **G**  
Something in the wind has learned my name  
**Bm**                      **Am**                      **G**  
And it's telling me that things are not the same  
**C**                      **D**                      **Bm**                      **Em**  
In the leaves on the trees and the touch of the breeze  
**C**    **D**  
There's a pleasing sense of happiness for me.

**G**                      **D**                      **G**  
There is only one wish on my mind  
**Bm**                      **Am**                      **G**  
When this day is through I hope that I will find  
**C**                      **D**                      **Bm**                      **Em**  
That tomorrow will be just the same for you and me  
**C**    **D**  
All I need will be mine if you are here.

—Sing last chorus twice.—

**Tacit**                      **G**    **C**
